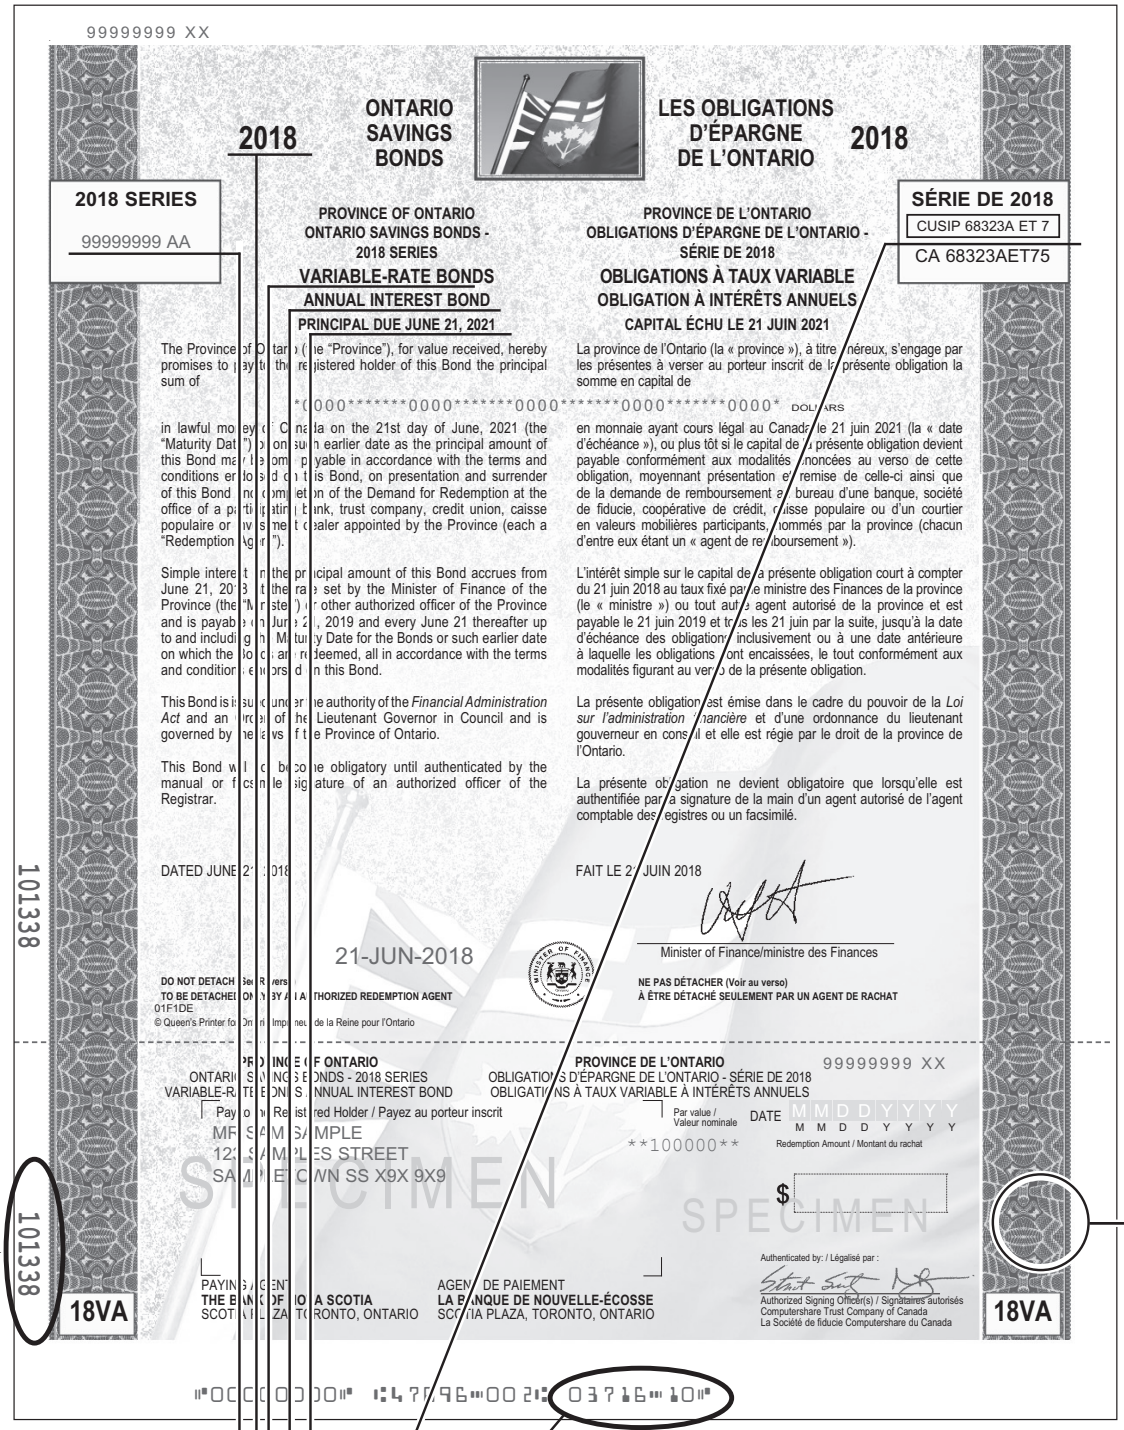
Bond Features

To ensure security and authenticity of Bonds, there are a few hidden features in the certificate.



General Features

- Serial Number
- Series
- Type of Bond
- Form of Bond
- Maturity
- Cusip
- Bank Account

To verify the authenticity of the certificate, please look for these security features:

- Halo numbering: bleeding effect on the reverse of the bond
- Embossed logos (bottom corners)
- Watermark of North America throughout the bond when held up to the light (not visible here)
